# *Easter Floor Game*

Use this game to help your children learn more about the facts of Jesus' death and resurrection, the reason we celebrate Easter. Before you play the game, read Matthew 26:47-28:20 with the children or tell the story in your own words.

## Materials Needed:

- Heavy paper (construction paper or cardboard) for the game squares large enough for children to stand on.
- Small cards for the actions (see below)
- A die for determining how many squares to move
- A copy of the questions (below)

## Preparation:

You may want to let the children help you make the game squares.

1. Make 6 white squares for penalties. Print the following on them:
  - Go back 1 square
  - Go back 2 squares
  - Go back to Start
  - Lose 1 turn
  - Lose 2 turns
  - Stay where you are
2. Make 14 red squares. Draw a smiley face on each one. Copy the 8 cards below on red paper and cut them apart. Read one each time a child lands on a red square.
3. Make 20 white squares with the outline of a cross on each one.
4. Make 1 START square and 1 EASTER JOY square, any color.
5. Tape all the squares on the floor in a winding path.

## Play:

The first child throws the die and walks on the game board to the correct square. If it's a red square, the child must do the action that is read from a small red card. If it's a white square with a penalty on it, the child must do whatever it says. If the child lands on a square with a cross on it, the teacher reads one of the questions and the child answers. If the answer is correct, the child may move ahead 3 squares. The next child takes a turn and so on. The first child to reach EASTER JOY wins the game.
